

How to Integrate Technology in Your Space

During the presentation, Emilio Jose Garcia, Co-owner of KW Professional Organizers, talked about how to integrate technology in your Home and Office. The importance of a Pre-wiring to get your space ready for technology, how to transition from multiple remotes to one smart universal remote that will control all your devices and some benefits of Home Automation, or also called Smart Home Solutions.

Emilio shared with the audience some Organizing projects his company has done recently including De-cluttering and Organizing garages, basements, kitchens and installing organizing solutions like glide outs to make your kitchen cabinets more accessible and functional.
